s that are important to (11-13 year olds)

Voting: 11 year olds and older are at an age to understand the meaning of politics and voting

School: We need education for children for their up bringing in life. AND some teachers around New Zealand aren't getting enough pay.

Housing: State housing should be up to date with renovations and neighborhood upgrades.

Jobs: early teenagers should have a better chance of finding a suitable and high paying job.

Vaping is a very serious situation and should be kept afar from all the kids that are now doing it because it'll become addictive and could ruin your health !!! STOP VAPING

Being selfless and not worrying about too much things

Trying to balance Home, and school life.

Making sure that you aren't dating anyone because it will eventually lead to heartbreak.

Your body will start to change as you grow

Having trust issues and really bad mental health

Being called lazy even though you doing your doing your work. And being called useless and being told your not ding enough.

LOVE YOURSELF

Things like changing and puberty as a Girl and a Boy. And also big changes like our appearance and being more worried about our looks.

Issues nower days for people our age is going outside and touching grass, BREATHE AIR.

Trying not to overthink stuff, and know that you are just fine and everything is gonna be ok.

Making sure your doing your work and doing good in school

Making sure you are enjoying your life as a young kid

nething else is
being part of
tionships with
er the opposite
der or the same
der.

How long you are going to spend on video games.

Making sure your going to sleep on time

having money to buy essentials

parents not having enough money to buy their children the things they need

might worry about their living state because their house might not be in a good state or it might not be healthy to live in because they might not have enough money to fix things

might worry about looking after their little siblings because their

Getting crushes in middle school

n't care
the older
arent the

Scrolling on tiktok and pinterest 24/7

Money: Because now these days lots of 11 and 13 year olds are wanting money to go out and buy stuff for them like food,clothes,etc

they might worry about having food because some family's don't have enough money and that might cause them to go for days without eating.

sports and afterschool activities

Education: Some peoples parents cant afford school taxes meaning that they are going to have to learn on their own without a teacher on their side or a private Tutor.

Knowing what you want to do in life especially knowing your lifetime job

Parents giving you hidings because your emo

Wanting to have everything new that's come out because our friends have it and everyone is wearing or using it

Going through puberty

Food: Food is important to 11-13 year olds because they need their energy to play sports etc

Losing loved ones can really affect 11-13 year olds, they can get depression and it can effect their mental health

Wondering when it is time for lunch

being a twitch streamer

Deciding which college to go to

Clothes: 11 and 13 year old these days are obsessed with clothes

mental health

Losing and making a lot of people

Not being ab
to go places
because you
can't drive

Losing loved ones can effect 11-13 year olds, it can give them Depression and can effect their mental house making them wanna do things to their self that are inappropriate.

Knowing wha
your going to
do in when
you turn into
teenager

Liking someone which is fine but not getting into a intimate relation ship as we are still kids so we should just enjoy life as much as we can

Jobs Kids 13+ should have a side hustle for cash

Issues that may be important to our parents, aunts, uncles and teachers

I think that most parents would love if the minimum wage knocked upwards a little bit even if it went up a dollar it would make some peoples lives easier with taxes and bills

Issues with parents consist of looking after their kids when their sick and gas prices going up

taxes are a issue for adults because they could be struggling and the taxes are only makes it worse

Tax rates are getting higher and adults aren't getting a high income such as Teachers,Construction Workers etc.

Petrol costs are costing a lot more now adults who work a job long from home are having to cut budgets on food and all their other needs and are taking a long way plus there incom

Healthcare: Although prescriptions are free, the government should cover at least 20% of the price of non free prescriptions to those who doesn't have the money.

Driving: Roads in New Zealand should be safer by reducing speed limits.

Transport: Commuters should freely be able to quickly go across Auckland or Wellington or anywhere!

people judging your parenting even though your trying your best

Prices going up and costing way to much to pay for

having to do everything around the house and not having a break

thinking of something to feed your family every night for dinner

Inflation is a huge problem now so they need to watch how-they spend their money

Their children : They need to watch how they parent their children and how to raise them right. Teach them right or wrong bad and good. Remember they are in your hands ;)

Supermarket shopping: You should only buy the essentials like bread milk etc. You can get the occasional treat but you have to know its needs before wants.

suicidal

petrol costing lots of money and food prices going up

People saying that your not good enough even though you try your best to be the most kindest person in the world

bills going up and having less money

Breaking up with loved ones, can effect peoples mental health it can cause depression and lazyness.

not having enough money to look after their family

Having to use old stuff just cause your kids need it more than you do

HAVING TO SKIP BREAKFAST,LUNCH,DINNER JUST SO YOUR CHILDREN CAN EAT SOMETHING

mental health issues

Being called lazy even though your not

voting

People saying that you're not good enough eeven thought you try your best to be the most kindest person anyone has met in their life.

How their children follow them in the steps they took

HAVING BIG responsibilities

Thinking about their childrens future and what they should and shouldn't become.

Worrying about money and all the bills

Having the resposibility of taking care of younger and older people.

For Aunts and Uncles they might be worrying about having children and moving to different places.

Always being there for the children when their going through rough times

Not putting all this pressure on the kids and making them feel like they HAVE to do things that'll just make YOU happy not the kids.

Looking after their children.

Not being a good aunty/uncle to their nephew or nieces

Actually watching their children grow up into adults aswell.

Thinking that their not good parent even though their trying their best to provide for us kids

Making sure that their children are having a good school life.

Issues that may be important to people who are retired (65+)

People over 65+ are getting old are can't move around and they don't get income so they have to have someone who can do all of that with them.

I think that people over 65+ do not have an oppurtinuty to do what most young kids can so i think they would like if they were able to be as flexible and durable as a kid

They probably see how us kids are having fun and wished that they had their youth back

They want to spend time with their family but sometimes cannot be able to visit them and have fun

Some of them probably wants some company and feel lonley sometimes?

Spending time with their family

They would probably not have to worry about how much money they spend on taxes and doctor stuff.

People over 65+ might just wanna come back to working but they might not be able to because there might be jobs that are not fit for their age.

Having a good life before they pass away

Some people might not actually be happy by retiring at 65+ because their might be issues with Home and Taxes that might need paying off. but they can't cause they're retired.

They want what's best for the next generation

People 65+ might want to go back home but have people that are there just incase something happens

People over 65 would probably worry about how they want to spend the rest of their life.

They would probably want to spoil their kids or grandkids as much as they can before they pass away

Not getting enough energy like us kids and they don't get enough exercise

Getting older and older as they live on

your husband or wife passing before you.

The elderly should get good services for a cheap amount of money, covering all their expenses, like 50 to 100 dollars for finance.

Not diminishing their energy as much as much as they would like 20 years ago.

So basically if their retired their rich :D

Army veterans over the age of 65 should get cheap healthcare prices.

In their last couple of decades they should enjoy themselves spend their time on holiday and their Grand Children. Do something that brings them joy.

Non retired people who still work should get a 25% increase on their salary/wage

Over 65's should at least 50% off flight, train or toll prices so they can visit their family.

cancer

wanting to make sure your family are okay before you pass

Having fear of who is going to take care of your family or pets

illnesses

make the most of life

making sure your loved ones are okay

making sure that you had a happy life before you die...

cherish your loved ones

finish your bucket list before you pass

Having the fear of slowly dying

death anxiety

missing your loved ones

spending time with your husband/wife

Giving your entire will to your family to look after and cherish.

slowly loosing your memory

hospital taxes

retirement costs

living life to the fullest

They need to stay healthy and strong, so they can have a peaceful life.

funeral insurance

giving away their stuff to loved ones

Issues that are important to Toddlers

Going to kindy to see your friends

playing with their toys

Having free education unlike those children whose parents cant afford it.

Kindergarten prices should be at least 5 dollars an hour.

Babies getting a decent amount of Vitamins, Carbs, Protein and minerals. Babies should also get a discount on their food and do kindergartens absolutely free

Not getting enough education and might not have anyone to look after them if the parents work everyday.

Making sure they are eating healthy and eating well !!

They worry about what food is good to eat.

Watching their favourite tv shows

eating their favourite food

Playing with their friends

Toddlers are like treasure so this means to help them because of how small they are. But again sometimes you need to give them time just in case they would be too clingy as they grow older.

Having the right amount and the right food to eat.

Drinking Enough milk because some kids don't have any

Toddlers are also picky sometimes on different things such as food, and toys.

Its important to make sure that the little kids are exploring as much as they can before they go to school and learn !

Toys can make Toddlers happy

Family time

sleeping !

TEAM DECISION NOTHING IS WRONG WITH THEIR LIFE

Its also really important for them to know how to write their names!!

Having troubles with making new friends

Not having a free chance to education and parents being forced to pay (Alot of them not wanting to spend that money)

Going to kindergarten

Not having the chance to meet different kids and different types to people (Which is important when your an only child)

And they should have better healthcare.

When the toddlers are in need of medical care they should be prioritised first.

Single parents that have children under the age of 5 should have cheaper healthcare. Or should just go to WINZ.

Watching their favourite tv shows RESPONSE : Irrelevant not related to government and the importance to a toddler

Making sure their having the right amount of sleep, so that they can be happy and not angry when they wake up.

It is good to make sure that the younger kids are having alot of sleep

To note isn't family time almost the same as spending time with ur parents

Having the chance to have fun before turning old and having to work

Missing out on their education because some parents can't pay for child care

spending time with their parents

Making sure that you are a healthy and fit child.

Making sure their always coming always on time an always be early to kindergarden

Making sure their eating healthy and not having to much sweets
